校監的話 Supervisor's Message

杜少萍校監
Supervisor Flora Too

瑞士心理學家皮亞傑 (Jean Piaget) 認為自由遊戲是幼兒的認知和社會情感發展的關鍵，他主張讓幼兒自己去動手、探索、思考來建構他們的知識。而遊戲能讓幼兒在無壓力的環境中學習和自主探索 (Piaget, J. 1952)。因此，本學年在課程中推行以自由探索元素為教學策略，以提升遊戲的設計、帶領及回饋技巧，為幼兒提供自由探索學習的機會，引發幼兒的探索精神和發揮創意。善用閱讀創設有興趣的遊戲情境，豐富幼兒的遊戲意念，提升幼兒主動參與自由遊戲的動機，加強幼兒於遊戲中實踐所學的效能。

Swiss psychologist Jean Piaget believes that free play is the key to children's cognitive and social-emotional development. He advocates that children should construct their knowledge by doing, exploring and thinking. Games allow children to learn and explore independently in a stress-free environment. (Piaget, J. 1952). Therefore, this school year, using exploration elements as teaching strategies is promoted in the curriculum to enhance the skills of design, guidance and reflection of games, providing children with opportunities to explore freely, stimulating children's spirit of exploration and creativity. Make good use of reading to create interesting game scenarios, enrich children's game ideas, enhance children's motivation to actively participate in free games, and enhance children's effectiveness in practicing what they have learned in games.

校長的話 Principal's Message

徐望嫻校長
Principal Chui Mong Han

利維·維谷斯基 Lev Vygotsky (1896-1934) 提出「最近發展區」的概念，認為遊戲能幫助孩子在社交互動中學習，更好地理解 and 掌握新知識。本校近年以自由遊戲為教學策略，為幼兒提供自由探索的機會。自由遊戲是孩子們探索世界的重要方式，這種遊戲形式不僅讓孩子們在輕鬆自主的環境中學習，還能促進他們的創造力、解難能力、社交能力等。過程中，孩子們會進行角色扮演、建構和合作等。教師則擔任引導者，提供支持和資源，觀察並適時介入，並於遊戲後引導幼兒整理和鞏固所得的新知識和新技能。

Lev Vygotsky (1896-1934) proposed the concept of the "zone of proximal development," believing that play helps children learn through social interactions, allowing them to better understand and master new knowledge. Our school has consistently adopted free play as a teaching strategy, providing young children with opportunities for independent exploration. Free play is a crucial way for children to explore the world; it allows them to learn in a relaxed and self-directed environment while enhancing their creativity, problem-solving skills, and social abilities. During this process, children engage in role-playing, construction, and collaboration. Teachers act as facilitators, offering support and resources, observing and intervening when needed, and guiding children to organize and reinforce the new knowledge and skills they acquire after play.

辦學宗旨 Aim

本校致力提供優質全人教育服務，並培養兒童五育(德、智、體、群、美)的均衡發展，透過愉快遊戲學習，啟發兒童潛能，培育孩子成為樂於學習、善於溝通、勇於承擔、敢於創新的新一代，從而建立自信和積極的人生觀。

William has been striving to provide quality pre-primary education to nurture children to attain all-round development in the domains of ethics, intellect, physical ability, social skills and aesthetics. Through different kinds of activities, our school renders a pleasurable learning environment to enable children to enjoy learning, to communicate effectively and to develop their creativity and sense of commitment. Moreover, children can cultivate self-esteem and positive attitudes.

我們的使命 Our Philosophy

本校以「兒童為本」的教育精神，並以英文「CHILD」奠定兒童發展方向，以愛心和關懷，以專業的態度培育兒童。
Our philosophy is centered around the holistic development of the CHILD - offering love, care and a professional attitude.

- C - Creativity 培育創意
- H - Happiness 愉快學習
- I - Intelligence 啟發智能
- L - Languages 兩文三語
- D - Development 全人發展

校本課程發展

School-based Curriculum Development

通過課程規劃以加強課程中自由探索元素
Strengthening the Elements of Free Exploration through Curriculum Planning

遊戲是幼兒教育課程中不可或缺的元素，對幼兒的認知、社會、情感和身體發展具有重要價值。遊戲不僅能激發學習興趣，也能促進幼兒的綜合能力發展，提高學習動機。環境設置能刺激幼兒的探索與好奇心，透過不同的低結構物料，讓幼兒自由探索，找出物料特性後再動動腦筋就能想出多變的玩法。適當的遊戲活動能提升幼兒的創造力、問題解決能力和協作能力，並在遊戲中體驗成功與失敗，培養自我調節能力和社交互動技能。

Games are an indispensable element in early childhood education curriculum and are of great value to children's cognitive, social, emotional and physical development. Games do not only stimulate interest in learning, but also promote the development of children's comprehensive abilities and improve their learning motivation. Environmental settings can stimulate children's exploration and curiosity. Through different low-structure materials, children can explore freely. After finding out the characteristics of the materials, they can use their imaginative thinking to come up with various ways to play. Appropriate game activities can enhance children's creativity, problem-solving ability and collaboration ability. They can experience success and failure in games, and cultivate self-regulation ability and social interaction skills.

K1 Teachers

Family Fun: 'Treasure Hunt'

Free play is crucial for young children's development, particularly in kindergarten. It fosters creativity, imagination, enhances problem-solving skills, and promotes social interaction. Through play children feel confident to behave in many different ways and to experiment with their physical, emotional and cognitive selves. It is also through play that children explore their interests and learn to navigate their environment at their own pace, which builds confidence and independence.

One engaging activity is a 'Treasure Hunt.' Create a simple map of your home with clues leading to hidden items like toys or snacks. This encourages exploration, critical thinking, and teamwork. Enjoy the adventure together, and watch your child's imagination flourish!

PN Teachers

Playtime Fun: 'Dance, Freeze, and Connect!'

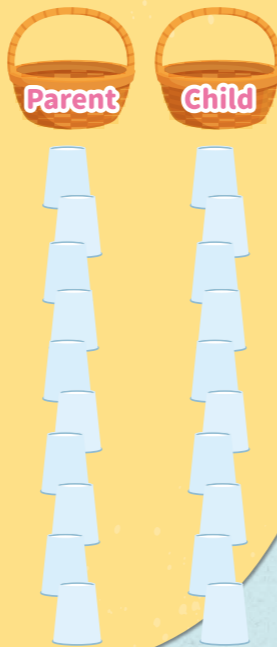

Looking for a simple, joyful way to bond with your little one at home? Try this playful dancing game that's perfect for 2 to 3-year-olds! Turn on some music and dance around together. When the music stops, parents can call out "Sit down!" and everyone quickly sits. When the music starts again—back to dancing! As your child gets the hang of it, let them take charge and give the commands. For an extra giggle, try dancing to the 'Freeze Dance' song—when the song says "freeze", everyone freezes in a silly pose or makes a funny face. This game builds listening skills, encourages movement, and most importantly, creates shared laughter and connection. No equipment needed—just music, imagination, and a little room to groove!

K2 Teachers

Family Fun: 'Pick Up the Cups'

1. Please arrange two rows with 10 Paper cups on each side.
2. Place two baskets on each side.
3. Rule is to pick up one cup at a time to the starting point and put it in the basket.
4. The person who finishes collecting all the cups first wins the game.
5. Any Strategy can be used to increase the speed, but only one cup each time.

K3 Teachers

Family Fun: 'The Floor is Lava!'

Bring adventure into your living room with The Floor is Lava. This is a classic, energetic game perfect for parents and children to enjoy together. Set up safe islands using pillows, mats, or cushions on the floor. When someone shouts, "The floor is lava!" everyone must jump onto an island and avoid touching the floor. You can add fun tasks like balancing on one foot or reaching for a toy without falling. Parents can choose to guide or join in the fun, making it a great bonding activity. This game helps improve balance, coordination, and quick thinking while filling the house with laughter and excitement!

家長心聲 Sharing of Parents

K3A 張凱婷家長

作為父母，我們經常關心婷婷在學校開心嗎？乖巧嗎？討厭返學嗎……然而，我們漸漸發現這些擔憂其實是多餘的。

婷婷每天都期待上學，即使在長假期或生病的時候，她也渴望回到學校；放學後，她總是興奮地與我們分享學校的趣事。婷婷如此喜愛威廉，因為她遇到了一群好同學、好朋友，以及充滿愛心和責任感的教職員團隊。在學校的教學方針、課程設計、親子活動及參觀安排等多方面的完美配合下，學生們自然能夠享受每一天的校園生活。

回想當初，我們選擇威廉實在是一個正確的決定。從PN到K3這四年間，我們要特別感謝所有老師和職員對婷婷的照顧，讓我們安心她在一個健康和愉快的環境中學習和成長，不用擔心她會受到欺負或忽略，也不用擔心她會被過分縱容。

祝願威廉所有教職員生活愉快、桃李滿門。同時，也祝福每位家長事事順利，學生們學業進步！

K3B 黃傳智家長

傳智每天都期待上學，他說很開心和喜歡老師們，昨晚他說知道快要上小學，但想符老師和Teacher Saima繼續教。由他懵懵懂懂蛻變成現在知書識禮、有上進心和熱愛學習的好孩子，絕對離不開學校校長和老師們的付出和耐性，所以很感恩遇上你們！

K3C 陳芯陶家長

我們的兩名女兒都在威廉幼稚園讀書，孩子們的成長與學習都離不開校長和老師們的辛勤付出。徐校長每天早上親自迎接每位學生，並記得每個孩子的名字，這份用心讓我們感受到無比的溫暖和關懷。這不僅讓孩子感受到被重視和愛護，也讓我們家長倍感安心和欣慰。我們衷心感謝校長和老師的愛心與關懷，你們不僅教導孩子們知識，還用愛心培養他們的品格，讓他們在這個美好的環境中快樂成長。希望未來的日子裡，能繼續與你們攜手，共同陪伴孩子們的成長旅程！

K3D 何曉萱家長

時間飛逝，曉萱的幼稚園生活就要畫上句號，身為家長真是感慨萬千呀！在這三年的幼稚園生活裡收穫了滿滿快樂和知識，也培養了善良、友愛、互助的良好品質。感謝老師們的辛勤付出，提供了一個如此美好的成長環境。
